

TWO LIMA HIGH SCHOOLS GIVEN NEW CHARTERS

High State Rating Received In Recognition Of Activities

New six-year charters have been granted Central and South schools by the Ohio Department of Education—marking the first change in the status of the Lima secondary schools in 38 years.

This announcement was made at a meeting of the board of education Monday night by Supt. J. McLean Reed, who revealed at the same time that the Lima schools had been given an "A-1" rating by R. M. Garrison, the state department's high school supervisor who recently completed an inspection here.

This rating is the highest that can be given by the state supervisor.

Reed explained that while the new charters are effective this month, South and Central actually have been functioning as six-year high schools for nearly 20 years. Four-year charters were granted to the two schools in 1903.

Under a six-year charter, the seventh and eighth grades are included in the high school system, while under a four-year charter they are considered part of the elementary grade system.

Reed said the new charters would be presented to the high school principals with appropriate assembly programs in the near future.

The superintendent also reported that the Lima public school system had received a certificate of recognition from the National Education-Association for "high professional spirit" and for 100 per cent enrollment of local teachers in the national organization during the past 15 consecutive years.

Next meeting of the board will be held Dec. 8 in the new home economics department at South high school, with Members-Elect T. Carl Jansen and Frank Smith as special guests. The meeting will be preceded by a dinner at 6:15 o'clock. Jansen and Smith will take office Jan. 1, succeeding C. H. Pool and C. P. Neiswander.

CORPORAL GOES OVER AS PILOT POINTS "DOWN"

NEW YORK, Nov. 25 — (INS) — "Orders is orders," and with that curt army explanation and a shrug of his shoulders, Corporal Al Moxley today explained how he happened to leap out of a training ship over New York City last night.

The 21-year-old corporal, who parachuted to safety in a crowded residential section of Brooklyn, said he went over the side when the motor went dead and when his pilot, Lieut. John A. Kelting, pointed downward in a "leap" signal.

But

A disconcerted Kelting gave a different explanation. He said he was intrigued by the lights of New York City, and "so I shut off the engine so the corporal could hear me, and then I pointed down and told him to look."

"The next thing I knew," he added, "Corporal Moxley had bailed out."

Moxley, who hails from Bristol, Tenn., and who is attached to the 60th Pursuit Squadron at Mitchell Field, N. Y., came to a landing when his parachute caught in the cornice of a two-story house.

Surprised residents, who unhooked the parachute belt and helped the dangling Moxley thru a window, took him to a police station where he was treated for slight scratches of the leg. Then the young corporal left for Mitchell Field for an "explanation."

PROSPERITY HURTS BANK; CLOCK TO REMAIN SILENT

M'CLEANSBORO, Ill., Nov. 25 — (AP) — A giant clock in the tower of the National Bank-bldg, which has given almost a half-century of service, is silent—a victim of oil prosperity.

It needs repairs costing about \$800, but the bank president says the directors do not want to spend that amount to fix the clock "in view of the fact that profits have been curtailed by an over-abundance of oil money, making it impossible for us to loan at a profit."
